### Project Scope

The Thornlie-Cockburn Link will be Perth's first east-west cross line connection, making travel around the city by train more flexible and providing a higher level of public transport service to Perth's southern suburbs.

Hawthorn Civil and Mining Services performed various principal shared path construction works for the Thornlie Cockburn Link - Ranford Rd and Station Precinct portions of the project.

### Scope of Works and Methodology

- Utility location, survey set-out.
- Saw cutting, irrigation management, excavation, removal and disposal of waste.
- Import, placement, trimming of pavement.
- Supply and lay asphalt.
- Backfilling and finishing works.
- Site clean.

### Plant and Equipment

- Skid steer loader/s.
- 6-wheel tipper/s.
- 6-wheel water truck/s.
- 12t smooth and padfoot roller/s.
